FROM MEMPHIS.

Henry Smith and Charles Hood to be Hanged—Report of the Board of Health.

MEMPHIS, Tenn., Jan. 12.—In the Criminal Court to-day the jury returned a verdict of murder in the first degree in the case of Henry Smith, colored, who was tried for kilding Chancey Long, colored, in 1877.

Charles Hood, colored, was to-day sentenced to be hanged 12th March next, for the murder of Mrs. W. C. Foster last January. An appeal was taken to the Supreme Court.

The annual report of the National Board of Health is just completed, and will probably be submitted to Congress to-morrow. The report says the work of collecting information and advice from the sanitary organizations throughout the United States, as to the best plan for the National Public Health organization, including subjects of maritime and inland quarantine have been quite successful. The report endorses the conclusions of the American Public Health Association at its meeting in Nashville last November. The following are some of the principal recommendations submitted: That for the present no change be made in the plan of the organization of the Board of Health. That a Convention of the representatives of the United States, state and local authorities especially engaged in the collection of vital statistics, be held with a view to securing uniformity throughout the country in the methods of collecting such statistics. That the law of June, 1879, shall be amended so that all vessels from foreign ports coming to the United States ports be required to have bills of health; that the Board of Health be charged with the duty of reporting to the President of the United States when any city is considered dangerously infected, and upon official publication by the President of such report, transportation of goods or persons from such infected cities into other States be forbidden under penalties to be imposed under the jurisdiction of the United States Courts, unless such transportation is carried on under rules and regulations prescribed by the National Board of Health, and these rules shall apply until the President publicly declares the place no longer infected; and that the President of the United States be authorized to call an International Sanitary Conference to meet at Washington, and to which the foreign powers having jurisdiction of ports likely to be infected by yellow fever, shall be invited to send delegates for the purpose of securing an international system of notification as to the actual sanitary condition of such ports and vessels sailing therefrom.

The last recommendation is that the National Board shall establish quarantine stations at once, near the mouth of Chesapeake Bay and at Ship Island, in the Gulf of Mexico, provided with all the necessary apparatus for treating infected ships; that these stations be managed by the National Board, and be devoted to the treatment of vessels bound respectively for ports on the Chesapeake and in the gulf. It is held that it will then be necessary only to maintain boarding and inspecting stations at the several ports. The report then states that in the opinion of the National Board complete quarantine establishments are needed at present only at Boston, New York, Philadelphia, mouth of Chesapeake Bay, Charleston, Savannah, Brunswick, Ga., or Fernandina, Fla., Ship Island, Mississippi, and some point on the Texas coast. The expense of the stations on the Chesapeake at Brunswick, and Ship Island, which are regarded as the most important is estimated at $100,000, and it is recommended that they be equipped and maintained by the United States. The report also recommends the establishment of inspection stations for steamboats on the Mississippi river, at New Orleans and Vicksburg just below Memphis and at Cairo. The estimated cost of these stations is thirty-five thousand dollars. The expenditures of the Board since its organization have been $154,000. The estimated expense from the present time to June 30, 1881, $486,000.

Robbed for his Money.

LANCASTER, January 10.—Last night about midnight eight masked robbers entered the residence of Jacob Mishley, an old miller, aged about 60 years, living by himself in a small house by the side of the Conestoga creek, on the line between Lancaster and Dauphin counties, several miles from this city. Upon entering they found Mishley in bed and told him to rise immediately, and demanded all his money. Fearing violence he gave them $150, all he had in the house. After receiving the money the robbers went through every room in the house and ransacked all the drawers. When about leaving they struck Mishley over the head with a heavy club which felled him to the floor in an unconscious condition. The old man was not discovered until early this morning, when a neighboring farmer, seeing everything dark around the house, investigated the cause and found Mishley bleeding on the floor. Medical aid was quickly summoned. Upon examination it was found that his head was terribly battered. The police authorities were notified, but up to to-night no clue has been obtained. This district has been troubled considerably by such desperadoes.

Proposed Hebrew College.

CINCINNATI, Jan. 12—At the semi-annual meeting of the Union of American Hebrew congregations, held yesterday, a report favoring the erection of a college and dormatories in connection with the Union was favorably received. The recommendation of the Board of Delegates on civil and religious rights to solicit donations from the congregations for the alliance of Israelite Universalie for Palestine and Java, was declared inexpedient. The measure for leading Hebrew brethren into agricultural pursuits is stated to have assumed tangible shape. A committee was appointed to solicit lands, farming implements and money. Adjourned to meet at Niagara the third Thursday in July.

Charges Against Commissioner Hayt.

WASHINGTON, Jan. 9.—A stormy meeting of the Board of Indian Commissioners was held this evening. The subject of investigating charges made against the Indian Commissioner Hayt, by Clinton B. Fiske; in connection with alleged mining operations of the former, was discussed. The Board was in secret session until nearly midnight, and the subject was deferred until to-morrow. It is understood that a majority of the Board, believing in Hayt's innocence, are opposed to an investigation. The charges were referred to a sub-committee, which will report to-morrow. Mr. Hayt has asked that an investigation be made, and General Fiske is very earnest in his demands for an official inquiry.

Accepted Bonds.

The sub-treasurer at New York yesterday opened the proposals to sell bonds to the government in response to Secretary Sherman's circular of December 31, stating that he would purchase $5,000,000 worth. The offerings aggregated $7,148,000, mostly from New York bankers, the only others being from the Consolidation national bank of Philadelphia and the Third national bank of Baltimore. The secretary accepted $4,055,000 of sixes 1881 at from 104.20 to 104.25, and $1,945,000 of fives of 1881 at 103.35 to 103 37½.

Forced to Leave the Country.

NEW YORK, Jan. 12.—The Captain of the Schooner, George T. Littlefield, from Barcelona, Veneuzula, reported that the United States Consul Echert and William Naphegyi. The latter claiming to be a citizen of the United States were forced to leave the country, and took refuge on board the schooner which landed them at St. Thomas. The trouble arose through the non-payment of customs dues by Mr. Naphegyi, who sought the protection of the consul. The American flag is also alleged to have been insulted.

Meeting of the Legisiature.

NEW ORLEANS, Jan. 12.—The Legislature meets to-day.

Lieutenant Governor Wiltz, who has been ill for two months, is steadily gaining strength, and will be able to participate in the organization of the Senate. He will probably be inaugurated Governor on Wednesday or Thursday.

Hon. Jas. G. Barnes Shot and Killed by a Tenant.

ST. LOUIS, Jan. 10.—Mail advices from New Madrid, in the extreme southeastern part of the State, say that Martin Paquette, a former tenant of Hon. James S. Barnes, shot and killed the latter last Sunday, by putting a load of slugs from a shot gun into his left breast. Paquette was arrested. The affair grew out of a disagreement while settling their landlord and tenant's account.

Serious Explosion.

EVANSVILLE, Ind., Jan. 12.—A keg of powder exploded in the forecastle of the Illewild packet, plying between Evansville and Cairo, at Weston yesterday, blowing off the forecastle and port hull to the water's edge, and badly crippling nine of the colored crew.

THE MAINE MUDDLE.

REPORT OF GUBERNATORIAL COMMITTEE.

Lawson Assumes the Gubernatorial Chair--Senator Ellis Elected President of the Senate.

PORTLAND, Me., Jan. 12.—President Lawson has assumed the duties of Governor, and has notified the Senate of his action, at the same time stating that the exercise of Executive functions being inconsistent with his further acting as President of the Senate, he cannot, in the meantime, discharge the duties of presiding officer of that body.

AUGUSTA, Me., Jan. 12.—On the assembling of the Senate this morning, president Lawson sent in a letter announcing that he had assumed the duties of Governor, whereupon Senator Ellis, of Waldo, was chosen president *pro tem.*

The committee on Gubernatorial votes reported, and the following votes were thrown out of the election held in September: Whole number of votes 138,807; necessary for a choice, 69,404; Daniel F. Davis received 58,700, Joseph L. Smith 47,649, Alonzo Garcelon 21,844, Bion Bradbury 263, and Daniel F. David 206. The remainder are scattering. The constitutional candidates are Daniel F. Davis, Joseph L. Smith, Alonzo Garcelon and Bion Bradbury.

On the proposition of the Senate to hold a joint convention for the purpose of qualifying the acting Governor there was some debate. Mr. Locke, of Cumberland, made a long speech, in which he claimed that the certificates issued by the Governor and Council to those not chosen, were not legal, and the acts passed by such a body would not be recognized by the courts or obeyed by the people. Messrs. Barker and Strickland replied, defending the legality of the Legislature, and declaring that they meant as honorable gentlemen to do the fair thing when an investigation should take place before the proper committee.

The joint convention was formed, and in the presence of the Secretary of the Secretary of State and several members of the Council, John D. Lawson took the oath and was proclaimed acting Governor of the State. Only 60 members were present in the House, and that body adjourned without transacting any business.

The Prayer of a Little Maine Girl Answered by Express.

Elmira Gazette.

The United States Express Company on the night of December 17th carried over the Erie an express package destined from Chicago, Ill., to Bucksport, Me., which has a singularly romantic history. A little girl who knits gloves wrote a note and placed it in one of the pairs of gloves before sending them off. It was as follows:

"I am a little girl only eight years old. My name is Cora Norwood. I live in Bucksport, Maine. I knit these gloves for eight cents a pair. I wish the gentleman who buys would send me a wax doll for a Christmas present as I have none and want one very bad."

The note was found in the glove by a firm in Chicago who had bought a quantity of them. They immediately purchased a splendid wax doll and forwarded it to her by the United States Express. The way bill was filled out in regular form as follows:

"Consignor, Keith Bros. & Co. Chicago, Ill." "Address, Cora S. Norwood, Bucksport, Maine." "Collect—nothing." "Prepaid with love." "Remarks: Be happy."

Across the face of the way-bill was written:

"The letter pasted on this way-bill is a request found in a pair of gloves, and this box contains the desired wax doll, being the gift of the employees of the firm selling the gloves.

"Please let this way-bill go thorough and be delivered with the doll. Those who handle the way-bill may indorse on the back their Happy New Year.

B. SCHEMERHORN, Agent
"Chicago, Ill."

"December 16, 1879."

Across the back of the way-bill were written the good wishes and Christmas congratulations to Cora of those through whose hands the wax doll passed on its way to Bucksport.

STATE NEWS.

GUILFORD.

GREENSBORO, Jan. 10.—The weather is quite warm—such as can hardly be remembered—and some have began to garden.

Trade is much better than during the holidays, especially in the fur market. By the way, I see one of your dealers was here this week to buy, but out of the large collections in the hands of two of our large dealers he did not get a skin. Prices of all kinds are high here, and have advanced to-day.

David Kersey, (one of our citizens), who died in the Asylum, was interred to-day in the Presbyterian yard, Dr. Smith making some appropriate remarks. He was a good carpenter, and a Christian gentleman, but his mind became impaired.

The time has almost arrived when something must be done in politics, in which we propose to take a full hand.

Miss Pomeroy seemed to take pretty well here, playing three nights last week, and is again on the boards for the 12th. The attendance was not large, however, so far as I could learn.

Speaking of our fur market, which, by the way, is the largest in the State; will you allow me to quote prices that are now being paid in cash daily here, viz: Rabbit skins per dozen, 33 to 75 cents; Coons each, 5 to 30; Muskrats, 2 to 8; Opossoms, 3 to 8; Fox, 10 to 35, Minks as high as 65 cents; Otters as high as five dollars. EAST.

DAVIE.

ELBAVILLE, Jan. 8.—The weather continues warm, with rain occasionally. Trade is brisk as usual.

Last Tuesday one of C. G. Bailey's teams, loaded with whisky, ran away at Beisicker's hill, near Lexington, N. C., upsetting the wagon. Results: One barrel of whisky bursted, wagon badly broken, one negro drunk and severely hurt, and one horse killed by running his head against a wagon loaded with wood, breaking his head and neck.

A Hungry Man.

Last Saturday afternoon, a tall, powerfully-built man, with sharp features and grayish hair, was walking up one of our prominent business streets, which was filled with people, and, when in front of a market, stopped suddenly, seized a dressed chicken, and began to eat it with the ferocity of a hungry wild beast. The blood of the fowl ran down his face as he tore the flesh from the bones, and he stopped only when he had consumed it all. He was totally oblivious to the wondering crowd. He was arrested and taken to police headquarters, where he gave his name as James Sullivan, from Chicago, and said that he had eaten nothing until he was on the point of starvation. He was evidently half crazed with liquor and hunger, and was given thirty days in jail to straighten him out.

Haye's Cabinet Disagreeing.

WASHINGTON, Jan. 9.—The question of appointing a new Governor for the Territory of Utah was further considered at the meeting of the Cabinet today, but no conclusion was reached. The members are considerably divided on this subject. It is held by a part of them that the present incumbent should be retained, while others insist that, in order to establish a more vigorous policy in the Territory, a change should be made forthwith.

The Exodus From Mississippi.

MERIDIAN, Miss., January 9.—A large number of negroes from Jasper County have passed over the Vicksburg roads, ostensibly en route to "God's country," the new name for Kansas. The exodus has almost depopulated the vicinity of Garlandsville, in that county, of negroes, and the whites are rejoiced at the riddance, inasmuch as their places are supplied by movers in from North Georgia.

Arrival of the Arragon.

NEW YORK, Jan 12.—The Steamship Arragon which left Bristol, England, December 19, and which, shortly after her departure was rumored to have been lost, reached here this morning.

THE THIRD PARTY.

THE NATIONAL CONVENTION TO ASSEMBLE IN CHICAGO.

Preamble and Resolutions Adopted by the Recent Greenback Conference.

WASHINGTON, Jan. 10.—The Greenback Conference fixed upon June 9th as the time, and Chicago as the place, for the National Convention. The following is the preamble and call adopted:

"We have reached a crisis in our country's history and an epoch in human affairs. Our government, which was designed for the political weal of manhood, has passed under the control of bankers, stock jobbers, land grabbers and professional politicians to the exclusion of those whose labor produces its wealth and pays its taxes. The constitional rights of the people are denied or usurped by the money power. The fruits of productive enterprise are grasped by corporate monopolies. The large share of accumulated wealth and undeveloped resources of the nation are concentrated in the hands of a small class, and all property interest and stability of our institutions, on the part of a large majority of voters, is dissrpated. Usurious interest and enforced idleness have filled the land with pauperism, crime and misery, and the air is ominous with murmurs of discontent. The very foundation of popular government is questioned and assailed, and the republic itself is in imminent peril. The people of the district of Columbia, containing a population of one hundred and sixty thousand souls, have been, by the act of Congress, wholly disfranchised, and laws have been enacted in various states to curtail this sacred right of suffrage, the very corner-stone of every republic. Deeply impressed by the gravity of this crisis, we cheerfully sacrifice all minor differences and unite for the purpose of resorting the government to the control of the whole people through the representatives chosen by them, uninfluenced by bribery, intimidation or sectional hate, and recovering their complete sovereignty over their elections, currency, lands and lines of internal communication, and finally to embody in law and enforce the rights of each laborer to the results of his toil. The Convention of the National Greenback Labor party shall be held at Chicago, Illinois, Wednesday, June 9, and the basis of representation shall be, from each State, four delegates and four alternates at large, and two delegates and two alternates from each Congressional District, and two alternates from each territory and the District of Columbia.

This report was adopted without debate by a unanimous rising vote.

Daring Thieves.

N. Y. Evening Mail, Jan. 10.

Detective Connors this morning brought before Justice Murray in the Essex Market Police Court, Henry Carleton, an ex-convict, whom he arrested late yesterday afternoon on a charge of robbery. At 11 o'clock P. M. on Monday, driver Logan, of car No. 38 of the Twenty-third Street Crosstown line, started with his car from the depot at the Thirty-fourth Street Ferry. Between Thirty-second and Thirty-third streets, in First avenue, two men boarded the car. Ten cents were dropped into the box, and then one of the men sat beside the box while his companion stood directly opposite the front door in order to shield his comrade's doings. As the car turned a curve, Logan heard a click, and turning suddenly he observed the lock of his money box lying on the floor, and the two passengers making their way out of the car. They fled towards First avenue, and the car proceeded to the depot, when Logan informed the superintendent of the attempted robbery. Cars Nos. 39 and 32, which left the Thirty-fourth Street Ferry after Logan, were also entered by the same men. The money box, supposed to contain between $18 and $25, in car No. 39, was wrenched from its fastenings and carried off, and the box in car No. 32 was pryed open sufficiently to admit the insertion of two fingers. Detective Connors was furnished with a description of the men, and last evening, at the corner of Thirty-fourth street and First avenue, he arrested Carleton, who was positively identified by Logan. Justice Murray remanded the prisoner until late this afternoon, when the drivers of cars 39 and 32 and the company's counsel will be present. Carleton admits having served two terms of imprisonment in State prison, but declines to make any statement in reference to the charge preferred against him.

Washington Items.

Mr. Peixotto, United States Consul at Lyons, France, reports great activity in the silk trade throughout Europe. He says cable dispatches from Shanghai bring information of an advance of prices in Asiatic silks.

A report has been received by General Raum, Commissioner of Internal Revenue, from the agent at Charlotte, N. C., stating that four special deputies in the western part of Wilkes county were recently fired upon by a party of illicit distillers. An additional force of deputies was sent into the county and the section thoroughly raided. Ten distilleries and two men were captured.

Major Wm. E. Sweet, Chief of the Internal Revenue Division in the office of the First Comptroller of the Treasury Department, has been dismissed for extravagant expenditures made while traveling on Government account.

Breweres in Troubles.

New Orleans Democrat, 10th.

A number of the largest brewing firms in Cincinnatti have recently had bills in chancery filed against them in the United States Circuit Court, to enjoin them from using a patent machine for pitching the inside of beer barrels, and to compel them to render an account of damage for past unauthorized use of the same. The machine is claimed to be the invention of one Holbeck, of Chicago, and the letters patent date back to 1864. The brewers of the Queen City manifest a disposition to face the music and a pitched legal battle is likely to result over this pitching process.

Fifteen Afghans Hanged.

LONDON, Jan. 9.—A despatch from Calcutta says: "The particulars of the proceedings of the court martial in Cabul on the Afghans, who were implicated in the attack on the British Residency on the 3d of September last, show that all of the fifteen men who have been hanged were either concerned in the massacre of Major Cavagnari and his staff, in the murder of wounded soldiers, or had taken part in the treacherous attacks on the British. All the other prisoners were released. General Roberts has communicated with Mahommed Khan at Ghazni."

Trucking Business in Craven.

Newbernian, Jan. 10th.

Last spring, this immediate section was signally fortunate, and exceedingly successful in raising an early truck crop which contributed no little to the prosperity of our farmers, and, as a consequence, to all classes of our citizens. The knowledge of this success has not been confined to this neighborhood, as evidenced from the fact that a number of gentlemen who had been operating near Norfolk, Va., and others who had operated farther north, have secured land in this vicinity, and from present appearances the truck planting, especially in garden peas, will be quadrupled. It is earnestly to be hoped that the coming spring will be propitious, as the success or failure of the early crop will affect our people to the extent of thousands of dollars. If the weather of the past two or three months is in any way indicative of the spring season, then will we be fortunate indeed; and the adaptability of the New Berne section, for trucking purposes, be fully established, and the horn of plenty for our people will, in a very few years, be filled to overflowing.

THE MEXICAN DOLLAR.

A Discovery which Swells the Navy Dues Ten Per Cent.

An interesting question has arisen in connection with the circular recently issued from the Treasury estimating the standard coins in circulation in foreign countries. The values are based upon the standard of the gold dollar, whereas all previous estimates have proceeded from a silver standard. The particular point involved is the effect upon the Mexican dollar, which is rated at its bullion value of 90.9. In a similar circular of the previous year, proceeding on the silver standard, the value of this dollar was rated at $1 01. As is known this dollar circulates in China, Japan and Mexico, and is used in cashing United States drafts for the payment of employes of the navy stationed at these points. It is said that about $3,000,000 are annually paid out by the disbursing officers of the government in these dollars. The attention of the Fourth Auditor, who has charge of the accounts of the navy, has been called to this matter, and though this officer will be brought officially before the navy department. What the exact effect will be is not precisely known, but if the wages of the men are paid in lawful values, the expenditures of the Navy Department will be increased by about ten per cent.; for while the Mexican dollar is a depreciated coin in this country, it circulates for its face value in these foreign countries and occupies relatively the same position as our greenbacks did while gold was at a premium.

A Fatal Mistake.

A dispatch from Greenville, Miss., dated January 7th, announces that City Marshal McGuire, of Lake Providence, while attempting to arrest a number of flat boatmen, was shot and killed. Five men were arrested on suspicion and placed under guard. A number of McGuire's relatives broke into the room, opened fire, and mortally wounded two. The other three were crippled. A jury of inquest discovered that the man who killed the marshal was James Brown, who escaped in a skiff, and the five who were shot were innocent.

Pounding It Out of Shape.

Evening Chronicle (Dem.)

McClure's *Times* is pounding the third-term iniquity out of shape. Keep it up, neighbor.

One of my children was recently attacked with a severe case of Croup, which really assumed a distressing phase; I was recommended to try Dr. Ball's Cough Syrup, after other remedies had failed. The effect was most happy and speedy, causing an entire cure. F. Albrecht, 241 S. Sharp St. Baltimoore.

No More Hard Times.

If you will stop spending so much on fine clothes, rich food and style, buy good, healthy food, cheaper and better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of employing expensive, quack doctors or using so much of the vile humbug medicine that does you only harm, but put your trust in that simple, pure remedy, Hop Bitters; that cures always at a trifling cost, and you will see good times and have good health. See another column.

Why Will You

Allow a cold to advance in your system and thus encourage more serious maladies, such as Pneumonia, Hemorrhages and Lung troubles when an immediate relief can be so readily attained. *Boschee's German Syrup* has gained the largest sale in the world for the cure of Cough, Colds and the severest Lung Diseases. It is Dr. Boschee's famous German prescription, ane is prepared with the greatest care, and no fear need be entertained in administering it to the youngest child, as per directions. The sale of this medicine is unprecedented. Since first introduced there has been a constant increasing demand rnd without a single report of a failure to do its work in any case. Ask your Druggist as to the truth of these remarks. Large size 75 cents. Try it and be convinced.

ADMIRAL MORGAN.

A RECENTLY PUBLISHED HISTORICAL INCIDENT.

A Story that Queen Victoria Never Told, and Why She Never Told It.

People attempting to do great deeds and failing, are having a run in literature just now. The *Atlantic* recently published the story of "the man who was to have assassinated Napoleon," although the story, as told, makes it doubtful whether there ever was such a man. The *Saturday Magazine*, published by Mr. F. B. Perkins, assistant librarian of the Boston Public Library, and a nephew of Mr. Henry Ward Beecher and Mrs. Stowe, furnishes a tale of exceeding interest, written by Suchet Ward, the secretary of "Admiral Morgan, of the United States flagship Tennessee." Mr. Perkins is Secretary Ward's executor, and found the story among his papers. The incident it relates has never been discovered in any public document, nor has it yet appeared in Martin's Life of the Prince Consort, and Mr. Perkins thinks it never will. Briefly, the story is as follows:

The Tennessee was cruising in the English channel when the news came of the stopping of the Trent and the capture of Mason and Slidell. Morgan was eager for a fight, and hoped the incident would lead to war. He was holding his vessel off Osborne, Queen Victoria's residence, on the Isle of Wight, subject to the order of our Minister to England. Ward was sent ashore to fetch off that gentleman, and on his return with him was told by the coxswain of the Admiral's barge that the "old man had got a widder below, a runnin' off with her. They say she's the richest woman in England."

As soon as Ward and the Minister were on board the Tennessee got under way. "The widow was Queen Victoria with one of her personal attendants, Lady M——." The American Minister was stunned, looked again, stepped forward, and, bowing very low and ceremoniously, said he was most astonished; whereupon Queen Victoria burst out upon him, asking him if it was possible he had contrived this wickedness. She declared, in a great rage, that she had been kidnapped by "this person," meaning the Admiral, who was a worse pirate than John Paul Jones. "But whatever happens to me," she said, "it will be the end of your republic, Mr. ——, and you will richly deserve it!" She spoke right royally; without a tinge of fear; as boldly as if she were addressing her own Parliament in Westminster Abbey, instead of being a captive in a foreign man-of-war, beyond the possibility of rescue.

The Minister at once ordered the Admiral to stop the vessel, turn about and take it back to its anchorage. The Admiral remonstrated. "Mr. ——," he said, "we've got 'em sure, with her," motioning toward the opposite cabin; "they will be glad to drop Mason and Slidell like a hot potato." But the Minister insisted, and the Admiral obeyed. Then the Minister went into the cabin and had a long talk with the Queen. He told her that she controled the lives of thousands of brave men, for she could cause or prevent the declaration of war. He begged her, as a Christian, to overlook the insult, and not destroy a country which loved and reverenced her as her own English people did. There was a tremor in his voice. Queen Victoria changed color, hesitated, and finally agreed to keep silence, if she could be put on shore again without being known. This was accomplished, the Minister kissed the Queen's hand, and the American Republic was saved.

Admiral Morgan had been studying the London *Illustrated News* containing sketches of Osborne and the grounds together with a narrative of the Queen's habits and favorite resorts while residing there. He was then enabled to put a boat ashore, secretly capture her and carry her off to his ship. The Queen was as good as her word and never breathed a whisper of the affair. Perkins heads his article, "What Queen Victoria Never Told." We, however, have private information, to which Perkins is quite welcome, that the reason why she never told is because she never heard of it.

Remarkable Loss of Memory.

An extraordinary story is told concerning the present mental condition of Rev. Morens Ormond, D.D., of Bergettstown, Washington county, Pa. About a year ago he was taken violently ill; immediately after his house and fine library were destroyed by fire. As he began to recover, it was noticed that he seemed to have forgotten how to talk. By taking great pains, the members of his family slowly got him so that he could express his thoughts in a broken manner. It was then discovered that the once highly accomplished scholar had entirely forgotten the past, and knew not even the letters of the alphabet. With more difficulty than if he were a child, he again acquired the letters of the alphabet, and began to master simple reading. His wife and children next tried to teach him to write, at first a seemingly hopeless task. At last he could write his name; and in doing this, singular to relate, he made signatures exactly resembling the ones traced before his sickness; but he could not spell his written name aloud. His physical health at present is excellent, but his memory is still partial and chaotic. He is still unable to spell a single word, although he can read slightly; nevertheless, he can count correctly, and retains his former shrewdness in business transactions, albeit he can keep no accounts except in his memory. He recalls the faces of old acquaintances, but his mind is greatly confused in regard to their names.

The Progress of Journalism.

In 1775 there were in the United States less than forty newspapers and periodicals, whose aggregate issue for that year comprised 1,200,000 copies. Now the united press publishes over 500 daily newspapers, more than 4,000 weeklies, and about 600 monthly publications; of the dailies that existed in 1870, about 800,000,000 copies were struck off that year: of the weeklies, about 600,000,000; and of other serial publications, amounting in all to 1,500,000,000 copies. And to sum the matter up yet more forcibly, it must be stated that the United States publishes more newspapers, with greater combined circulation, than all the other countries of the world can together boast of having.

Entidrely Recovere.

NEW YORK CITY, June 16, 1879.—H. H. WARREN & Co.—GENTLEMEN:—I hereby certify that my wife has been using Warner's Safe Kidney and Liver cure for Bright's Diseases, and she is now entirely recovered. When all physician's remedies failed, she was induced to try your remedy, and received beneficial results from the first bottle. After taking four bottles she was entirely cured. Yours truly,

ROBERT B. FITZGERALD.

DAILY NEWS

TUESDAY, JANUARY13, 1880.

GEO. C. JORDAN, Editor and Prop'r.

THE Louisville *Courier-Journal* says that while the Republicans are howling about the iniquity of Governor Garcelon, who by the way was one of the organizers of their party in 1856, they are confronted by overwhelming evidence that to remedy the evils of Garcelon's count they have been trying to bribe Fusionists right and left, and no doubt have succeeded in some cases. Fraud and bribery are as natural for Republicans as the imbibition of milk by a babe, and they have been systematically practicing these arts in Maine. A professional bribe-offerer is an enemy of free institutions and dishonest in principle. Blaine and his henchmen come under those heads.

A SPECIAL objection now urged by the opponents of Senator Bayard's resolution is, that it would be an injustice to the debtor class to suddenly deprive Treasury notes of their legal tender power. In refutation of this proposition, the Atlanta *Constitution* very sensibly remarks:

"This objection presupposes two absurdities: First, that the creditor class might discriminate, in collecting debts, between one kind of notes and another, when both kinds are alike redeemable with coin at the same place; second, that the debtor class would be injured by such foolishness on the part of their creditors. It is not pretended that depriving the Treasury notes of their legal tender power would make them any less redeemable in coin; and, if it would not, they would remain "current money" none the less than they are now."

THE New York *Times* says that the cautious organs which have suspended judgment and reserved comments on the Republican bribery of Fusionist members of the Maine Legislature until the blanks in the affidavits were filled, may now proceed to speak their mind. The statements of Swann and Harriman are certainly circumstantial and have an air of frankness. Moreover, they are fortified in an unusual degree by the conferences they held with well-known citizens prior to taking the bribes and by the production of the corruption money before the Legislature. These things cannot be ignored or brushed aside with simple denials. It is not often that a case of bribery is supported by stronger testimony, and it is highly discreditable to the Republican Senators that they have put themselves on record as against an official investigation of the matter.

THE Peabody Fund that was to do so much to advance the cause of education in the Southern States appears so fail in its mission. Several States have been notified that payments are suspended for the reason that they are not doing enough themselves to forward education. The trustees may look at it in this light, but we had supposed the endowment was made to assist the struggling debt-laden States at the time they most needed it. Ten years from now they will be in a position to help themselves without any especial need of aid from the fund. At the breaking out of the war North Carolina had a splendid school fund that had been nurtured to a degree that it would have made it of considerable usefulness to the popular education, but it was nearly all swept away. However, with taxation reduced to living rates and proper action by the next Legislature it is possible that we can get along without any aid from the fund, although it will be at a slower rate.

THE TWO EMPRESSES.

For three or four weeks past no news has come from Peking concerning the differences between China and Japan, about the recent annexation of Loochoo.

It may be that the question, whose importance beyond the indignity done to China, is at the worst only tentative and as yet undeveloped, has been put aside for a while by the grey bearded, grave, and spectacled men of the Tsung-li-ya-men, as larger game is afoot.

In China the year closed joyfully. The re-conquest of Dzungaria and Kashgaria is complete, and the restitution of Ili, though apparently qualified by a defined right of way, is actual The two Empresses have more than restored the empire left by HIEN-FUNG, who died when the Anglo-Franco force had virtually held Peking for a while, and were in the possession of the Taku forts.

The year 1860 was a year of disaster to the Ta-tsing dynasty. Kashgar had rebelled, the Taepings had wasted the three vast cities of Hankow, and had ruined the magnificent southern capital of the Mings, Nanking. Since 1860 the Mahomedan and Neinfei rebellions, all formidable and immense, have wasted and well nigh depopulated and ruined province after province; famines of unexampled extent have ravaged the Chinese nation, and, with the following pestilences, have destroyed tens of millions of people. The son of Heinfung died miserably, and the present child Emperor has a questionable succession; but the two middle aged women have withstood a most frightful succession of calamities; *they*, although Manchus, have revived and uphold the national Chinese party, and at the end of this year will show to the world an enormous Empire, with its ancient boundaries shorn of but one rock—Hongkong—receiving the tributes denied for more than twenty years, and with but one small revolt unrepressed.

The military effort against the Taepings, Neinfei, and Mahomedans was exhausting. But at the last all the losses incurred in the Northwest—and they were enormous—were quickly made good, and the troops of Tso at last found no enemies to encounter.

The Russian general governor of Toorkistan saw the danger to Russia, and it is said that Ili has been restored to China by the advice of General Kauffmann, who foresaw the vast cost and even risk of collision with the inexhaustible, half-trained, but well armed hordes of China.

Tso, the Chinese Bismarck, though now about seventy years old, is still vigorous, and it is certain that he will again further the centralizing and consolidating military projects he has promoted since the year 1866. We are probably destined now to see, day by day, the gradual growth and development, in China, of a vast military and naval power, which may, if occasion arises, seriously threaten Japan, and dispute the supremacy of Asiatic dominion with both England and Russia.

POLITICAL NOTES.

Just now Mr. Seymour appears to be the most prominent candidate for the Democratic nomination for President. In the event of his nomination Mr. Hendricks could well afford to take the second place on the ticket.—*Boston Journal.*

The Democratic State Committee of Ohio has concluded not to have any convention for the election of delegates to the National Convention. The committee will name the four delegates at large—it will come handier—and allow the Congressional districts to name their own delegates in their own way. This will avoid a quarrel and make it unlikely that anybody will have a solid delegation from that State.

Some of the Republican papers are endeavoring to discourage the Sherman boom by referring to the trrditions of the past, from which it is made to appear that the head of the Treasury Department is always to be considered an aspirant for the Presidency, but that none of them are ever destined to attain the office. The only Secretary of the Treasury that ever proceeded so far on the road to the White House as to secure nomination was, we believe, William H. Crawford, of Georgia, who had the position under President Monroe. Mr. Crawford was a candidate for the Presidency in 1825, and was defeated, with others, in the House of Representatives by John Quincy Adams.

IN GENERAL.

There are now over one thousand cotton factories in this country.

The oldest paper of uninterrupted publication in this country is the Hartford *Courant*, now one hundred and sixteen yesrs old.

Within twenty years California and neighboring Territories have yielded to American enterprise not less than one thousand millions of dollars in gold.

The United States has become the chief agricultural region of the world, and the value of our agricultural productions has now reached the enormous annual aggregate of $2,500,000,000.

At the breaking out of the revolution the colonists possessed but nine colleges, among them Yale and Harvard; now there are three hundred similar Institutions in this country.

The United States, exclusive of Alaska, contains more than two hundred thousand square miles of workable coal beds, or eight times as large as the available coal area of all the rest of the world.

It is stated of the postal money orders that not even one rightful claimant has lost a single dollar under this system from the date of its organization until the present time, although during the last fiscal year alone the post office department issued over $90,000,000 worth of these orders.

At the present time this country contains over twenty-three thousand post-offices, with an aggregate length of post-routes of two hundred and fifty-six thousand miles; the annual revenue amounts to $23,000,000, and the annual expenditures to $20,000,000.

Unless the address on a postal card is rendered illegible by any portion of the message that may be written on the face, such a card is no longer, as once, treated as unmailable; but of course such a practice is not encouraged by postoffice officials, and is liable to cause some mistake.

People are remarkably careless about mailing letters, and letters containing large sums of money or its equivalent, too. The New York postoffice alone received during the past six months 1,153 *unsealed* registered letters, which contained in cash $6,849.21, and in checks, drafts, etc., $204,615.56. Of unregistered and easily negotiable United States bonds, $1,500,000 worth were recently posted by a well known New York bank in an envelope so weak that it came to pieces before leaving the stamper's table.

Mr. Tilden on the Third Term.

Atlanta Constitution.

The *Sun* says Mr. Tilden does not hesitate always. He has very positive convictions about the danger of a third term. He spoke like a patriot when he said: "It is the duty of every sincere lover of Republican institutions to do his utmost to prevent the re-election of General Grant. For my part," he continued, "I will do everything I can to secure the election of the man who may be agreed upon by the opponents of the third term conspiracy as the best candidate to unite the conservative elements of all parties. If a third term can be conferred upon Grant, a fourth and fifth will be. In short, Grant's installment in the White House in 1881 means the empire."

Georgia's Gubernatorial Aspirants.

Augusta Chronicle.

General Alfred Austell, of Atlanta, is the last nag entered in the gubernatorial contest. General Austell is the owner of a "bar'l of money," but his other qualifications have not yet been stated. The list now reads as follows: Austell, Bacon, Colquitt, Crawford, Gartrell, Hardeman, Lester, Lawton, Turnet, Smith, Reese, Underwood, Wright and Warner.

The Clement Attachment.

Wilmington Star.

The Louisville *Courier-Journal* is responsible for the assertion that a machine very much like the Clement Attachment was in operation in the South more than forty years ago. Who invented it? where was it used? who saw it? If this is true then any one can make and sell the Clement machine. We shall not believe all this until we see more.

Guilty of Wrong.

Some people have a fashion of confusing excellent remedies with the large mass of "patent medicines," and in this they are guilty of a wrong. There are some advertised remedies fully worth all that is asked for them, and one at least we know of—Hop Bitters. The writer has had occasion to use the Bitters in just such a climate as we have most of the year in Bay City, and has always found them to be first-class and reliable, doing all that is claimed for them.—*Tribune.*

GOSSIP FOR THE LADIES.

Naughty Fashions.

A little "Pull-back" sought one day
The gate of Paradise;
St. Peter wiped his spectacles
And rubbed his ancient eyes.

And throngs of ancient females came
With curious gaze the while
Intent, as ladies always are,
To see the latest style.

The Saint put on his glasses then,
And observation to ok;
"What! What!" he said, "this traver-
ses
The laws of mu sn't look."

"Tied back in front, pil ed up behind,
'Twill never do, I fear!
The thing is too ridiculous;
You cannot enter here."

What did she do, my curious friend?
She got behind a tree,
And in a jiffy out she came
As angels ought to be.

St. Peter kissed her then, and said,
"Pass in, my little dear;
But mind, you musn't introduce
Such naughty fashions here."

Pretty girls are very thick in Morocco. The Moors don't consider a girl pretty until she weighs over two hundred.

Miss Eckhardt, a farmer's daughter of State Center, Ia., pitched "eighty acres of wheat from a wagon to stack," and was married a few haurs afterward.

HUMOROUS SQUIBS.

An Irishman in describing America, said: "I am told that you moit roll England thru it an' it wouldn't make a dint in the ground; there's fresh water oceans inside that you moit dround old Ireland in; an' as for Scotland, ye moit stick it in a corner and ye'd never be able to find it out except by the smell of whisky."

Italian wit is somewhat peculiar. Among its proverbs are: "The dog earned its living by wagging his tail." "Make yourself all honey and the flies will devour you." "The smiles of a pretty woman are the tears of the purse." "He who takes an eel by the tail, or a woman by the tongue, is sure to come off empty handed."

Advantages Decided.

The advantages in the use of Dr. Price's Special Flavoring Extracts are decided, as they are put up in bottles of full measure; made from the true fruits and aromatics, without poisonous oils or ethers, pure and true.

Cuticura

BLOOD AND SKIN HUMORS,

The Scourge of Mankind. Old Methods of Treatment and Remedies a Failure.

CUTICURA RESOLVENT, the Great Blood Purifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this country. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Canker, those terrible blood poisons that rot out the machinery of life, filling the body with foul corruptions. Taken internally in conjunction with the external application of CUTICURA, the Great Skin Cure, it speedily cures Scrofulous Ulcers and Old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm, Scald Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

ECZEMA ON THE SCALP.

BREAST AND LIMBS CURED.

Messrs WEEKS & POTTER: Gualemen—I cannot refrain from adding my debt of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time have rid me of a loathsome disease. I dispensed with all physicians two years ago, believing they did me no good. The CUTICURA REMEDIES stopped this unsatisfactory expense—even if it were necessary and I had the courage any longer to follow their advice—and brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt Rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, or at mineral springs, or taking some kind of medicine. I have been treated by Drs —— of ——, Dr. —— of ——, and visited sulphur springs and taken numbers of patent medicines, all without the faintest approach to a cure.

April 1st last, I began the use of CUTICURA, which was immediately successful in my case, entirely curing me. I have not had a clean scalp for 15 years until the use of CUTICURA entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe myself completely cured. I shall continue the CUTICURA REMEDIES as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, as I have done in many cases, to urge the afflicted to use these wonderful remedies.

Yours, etc.,
STEPHEN CROWELL.
NEW BEDFORD, Sept. 30, 1878.

A RUNNING SORE

CURED IN ONE WEEK.

Messrs. WEEKS & POTTER:—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The back of one of my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to to-day. E. P. DAGGETT.
MILFORD, ME., June 10, 1878.

VEST POCKET CURE
25 DYSPEPSIA 25
CLERGY & DOCTORS TESTE

Rev. Dr. Mangum, Prof. Univ. of N. C. Iconcur with Bishop Doggett in his estimate of the Vest Pocket Cure.

Rev. Drs. Jeter, Broaddus, Dickinson, (Bap.) It is indorsed by the direct personal testimony of men of national fame and strictness of speech. It is not too much to say that no medicine ever had such support in its favor as a specific. The word of any one of the eminent divines who underwrite this antidote to dyspepsia has deserved weight. Their united witness joined with the experimental use and approval of the preparation by well-known physicians, removes all doubt. It is beyond question, a wonderful therapeutical agent.—Editors Religious Herald, Va.

Chaplain Randolph Macon College, Va. Many cases of Dyspepsia within my knowledge have been cured by it. Cramps, Colics Headaches and all sorts of pains from indigestion yield promptly to it. The cures of this sort are innumerable.

Rev. R. L. Dabney. LL. D., Col. Va. It is highly esteemed here by the regular Medical Faculty and the people. It is excellent for indigestion and flatulent colic, sedative, soporific, tonic, slightly aperient, without nausea.

Rev. B. F. Woodward, P. E., Va. Conf. About twelve years I suffered from Dyspepsia. Falling in with this remedy, I gave it a fair trial. After its use I could eat anything with impunity. I am sure I am indebted to this medicine for what of health and physical comfort I have had for the last sixteen years. I have known many since to be relieved by its use.

Rev. Robert W. Watts, A. M., Va. I have used the mixture in my family for years, and have taken it for a Dyspepsia Colic, which threatened my life, and was cured, eating any diet without hurt. I have recommended it to other sufferers with happiest results. It is the best tonic and corrective I ever knew. For prostration from Dyspepsia or Liver Disease it is invaluable.

J. D. Eggleston, M. D., Va. It is a highly valuable remedy, and is more extensively used than any single article in the whole list of medicines, so far as I observed in my practice, for all the complaints in familie from indigestion I use it and recommend it.

Editor Richmond Christian Advocate. This remedy is of tried virtue. I have seen Dyspepsia cured completely by it. It seems to be an antidote to our "National Disease." The ingredients are not kept by the apothecaries, and have been difficult to get.

Price 25 cents per bottle. Sold by all druggists. In Raleigh, by

A Rare Chance for Investment.

Wishing to give my whole attention to the lumber trade, in which I am about to engage on a larger scale than ever before, I offer for sale on terms to suit the times the following valuable property in Cary:

I.

MY PLUG TOBACCO FACTORY, in a BRICK building 50x80 feet, 3 stories high, the lower story being two large storerooms. The Pobacco Machinery is new and has a capacity of manufacturing 1,000 lbs. per day. The factory has been worked a year, and a good beginning for a trade has been made. The building and the machinery will be sold together, or separately to suit purchasers.

II.

GRAIN MILLS,

in a 3 story brick building, 28x40 feet. Two Wheat Mills and one Corn Mill, new and complete with a capacity for grinding 100 bushels of wheat and 100 bushels of corn a day, and can compete in quality of flour with any mills in the State. The mills have had a very large local patronage during the past year. They are driven by a 60 HORSE POWER STEAM ENGINE, improved, of the make of Talbott & Sons, Richmond.

Attached to the engine is also a 60 SAW CORTRON GIN and power press, at a safe distance (about 100 feet) in a different lot. The engine has a brick smoke-stack 60 feet high, making the danger from fire the least possible and the rate of insurance very low.

III.

Several well built and handsome residences, with lots and gardens of about 1 acre to each dwelling. They are wooden buildings, 2 stories high, with from 5 to 7 rooms each, situated in desirable locations in the village.

Besides these, 4 one acre lots, with cottage buildings of 2 rooms.

TERMS: One third Cash; balance on reasonable time.

——Mr. Theo. Hobgood, one of the most favorably known young men of the Eastern part of the State, has accepted the position of traveling agent for the NEWS, and has taken the field for active service. Any courtesies extended to him will be duly recognized by this paper.

——Another strange phenomenon in nature. Easom Williams, (col.) has a child three months old that was born with one ear. There is a slight indentation where the ear ought to be but no cavity extending into that head. It is healthy and vigorous and may be seen at its father's house in east Raleigh.

——Mr. Paulding has evidently studied with patience and intelligence the lines and their meaning, and has been impressionable while viewing the work of other actors of the same part. He acts with every line—almost with every word—and is faithful enough to his task to avoid slurring any speech or depriving it of gesture or fancial accompaniment. The repose which is a natural result of assumed melancholy helps him to maintain a composure that is admirable in an actor so young. He neither rants nor whines, as some Hamlets, afterwards great, did in their early days; he reads intelligently, and preserves the identity of the character.—*N. Y. Herald.*

What Physicians at Home and Abroad think of the Seven Springs Iron and Alum Mass.

In the treatment of Dyspepsia, Chlorosis, Anæmia, Nervous and Muscular Debility, Nervous and Sick Headache, Dysmenorrhœa, Menorrhagia, Amenorrhœa, diseases of the Kidneys and Bladder and such like organic or functional disturbances, I know of no remedy upon which I can rely with more certainty of satisfactory results than the "Seven Springs Mass."

W. F BARR, M. D.,
Abingdon, Va.

I have found no one single remedy to yield such satisfactory results as the "Seven Springs Mass." In the treatment of Dyspepsia, Chronic Diarrhœa, Anamia, Chlorosis, and for Chronic Eczema, I find it invaluable, associated with appropriate topical treatment.

GEO. T. HARRISON, M. D.,
New York City.

From my experience with the "Iron and Alum Mass," I believe it will prove the best medicine we have in use, for chronic diseases.

G. M. D. PATTERSON, M. D.,
Eaglewood, Texas.

For Dyspepsia, Ulcerations of the Throat, Inflammation of the Neck of the Bladder, Leucorrhœa, etc., the "Seven Springs Mass" seems to act with almost specific effect.

E. O. GRIGSBY,
DeView, Ark.

We could extend this list into the thousands with such testimonials from physicians from every State in the Union, but these are sufficient to indicate its application. The reputation of the remedy is too widely known to waste words upon its character. In ordering from druggists always mention Seven Springs Mass. Price $1 per package or six for $5, sent by mail, postpaid.

Good Living.

The secret of good living is of vast importance to all mankind. Every good liver knows this—but when the liver is bad, then take Rosadalis, the the great Southern Remedy, and Mott's Liver Pills. They are sure to restore you to health.

Experience of Years.

The experience of years has not detracted from the acknowledged excellence of the qualities of Dr. Price's Special Flavoring Extracts, but has completely established their hold upon the taste of all persons who love delicious flavors. They will satisfy the most fastidious.

For the Holidays

Brewster has just filled his store, especially for the season. Stop and examine his stock of fancy goods, toilet and cologne sets, vases, majolica ware *tete a tete* sets, toy tea sets, silver and fine plated ware. If you wish to make a nice present, we advise you to call on Brewster.

The Truth.

In the whole United States there is not a flavoring extract that is so valuable, so positive, so effectual in producing the most delicious, desirable, and delicate flavored cakes, pastry, ice cream, etc., as Dr. Price's justly celebrated Special Flavoring Extracts.

Given Universal Satisfaction.

The following letter from one of our well known druggists will show the estimation in which Mrs. Person's Remedy for Scrofula and Tonic Bitters is held in this community:

RALEIGH, N. C., Jan. 3d, 1880.

MRS. JOE PERSON, *Franklinton, N. C.:*

MADAM—Please send me 3 dozen more of your Scrofula Remedy as soon as possible, as I have only one bottle left of the 6 dozen purchased of you before. It gives me pleasure to state that your Remedy has given universal satisfaction to those to whom I have sold it, and from what I know personally of its alterative and curative properties, it merits all you claim for it.

Very respectfully,
WM. SIMPSON.

The medicine can be obtained in Raleigh from Mr. Simpson, F. H. Heartt and Pescud, Lee & Co. Persons desiring to see testimonials of cures, can obtain circulars by application to them or Mrs. Person.

Gentlemen.

It is just as much an impossibility to fabricate a pecuniary receptacle out of the out-side organ of the softer sex of the genus Hog, as to sell a Buggy either made out of or trimmed with GOLD or GOULD in this community.

But I can see how Emerson, Fisher & Co., can sell Buggies made from the best second growth hickory as follows:

Top Buggies $75. Open Buggies $65.
